BOOST.

Boost your city, boost your friend,
Boost the lodge that you attend,
Boost the street on which you're dwelling,
Boost the goods that you are selling,
Boost the people round about you,
They can get along without you,
But success will quicker find them
If they know that you're behind them.
Boost for every forward movement,
Boost for every new improvement,
Boost the man for whom you labor,
Boost the stranger and the neighbor.
Cease to be a chronic knocker,
Cease to be a progress blocker,
If you'd make your city better
Boost it to the final letter.
—From "Breakfast Table Chat"
in the Detroit Free Press.

A VICTORY FOR THE PEOPLE

PROGRESSIVE minded men of all political faiths have reason for rejoicing in the action of the senate committee in reporting favorably upon the appointment of Louis D. Brandeis to the supreme court. It means the confirmation of Brandeis.

More than that a Brandeis victory will mean that it is not fatal to a lawyer's chance of reaching the supreme court for him to devote his talents to espousing the side of the public welfare in cases where such interests are opposed by the forces of privilege.

Brandeis is a great lawyer—one of the most brilliant in the United States. His personal record and his personal

character are above reproach. His one and only sin has been that he has not served the trusts and those who have been intent upon further corraling the great resources of the country.

In the famous Ballinger-Pinchot controversy Brandeis was the attorney for the Pinchot side before the congressional committee and it was largely through his able conduct of the case that Ballinger and Ballingerism went down and out. Through that case the department of the interior was taken from the hands of the power grabbers, coal grabbers and others desiring to take for their particular personal benefit riches that justly belong to the people.

Brandeis' part in the Pinchot case and his clear cut exposure of some features of the trust question won him the undying opposition of special privilege represented by Wall Street. Those interests want lawyers and judges who will serve them and defend them, whether they be right or wrong. Brandeis is not that type of lawyer. His views are governed by his conception of law and principle and he has had the nerve to champion the side of justice, come what may.

The opposition to Brandeis has in reality been a great tribute to the man and to the president's judgment in selecting him for the supreme bench.

The confirmation of Brandeis will be a victory for the people of the United States.

VALUE OF THE BATTLE CRUISER

ALTHOUGH the action of the house committee has been disappointing in a measure to big navy men there is real rejoicing over the action of the committee in voting for five great battle cruisers to be built during the coming year at a price of \$20,000,000 each.

The value of the battle cruiser has been pretty thoroughly demonstrated by the present war. Great speed combined with big guns constitute the chief features of this type of warship. Speed is of value in overtaking an enemy or in escaping a more powerful foe. The big guns with the long range make a less fortunate opponent helpless under attack.

The battle cruisers proposed by the house committee will be the greatest ships of the class afloat. They will have a speed of six knots faster than any German battle cruiser and seven knots faster than any British ships of the class. Their guns will also be heavier.

The naval board while appreciating the value of battle cruisers also recommends that more dreadnaughts be built. It is the supposition the senate may insist upon two dreadnaughts in addition to the ships favored by the house committee. If this is done the coming

year will see the American navy substantially improved.

The house naval committee's report is now before the house and it is said it will be adopted as soon as a vote can be taken. The majority leaders are striving for an early vote but Minority Leader Mann is urging delay for debate. Early action on the measure will doubtless be taken and the next step will be for the senate and house committees to agree upon a joint measure.

THE LAND GRANT BILL

THE O. & C. land grant bill is now coming to a head in both houses of congress. The senate sub-committee has authorized Senator Chamberlain to draft his 40-40 provision for submission to the senate. It is indicated that the Chamberlain bill may succeed in the upper house.

In the house the 40-40 champions are having a harder time. Despite all that Congressman Sinnott can do it is probable the house will not stand for more than 20 per cent for the irreducible school fund and 30 per cent for roads for the land grant counties.

A feature of the situation in the house is the fact Sinnott seems to have virtually a lone fight to wage. Hawley, though now supporting the 40-40 plan has in reality been in opposition and desired legislation along different lines entirely. Congressman McArthur while in line on the 40-40 plan seems to have figured very little in the fight. In the senate Senator Lane seems to have done nothing in aid of the Chamberlain bill though it is possible this statement is unjust to the senator.

It is regrettable that the Oregon delegation has not made a consistent, united fight for the Chamberlain bill. However the division in the delegation but reflects the division within the state itself. Our state forces have not put a common shoulder to the wheel upon this subject and the fact will probably show in the final results.

There is a report to the effect Russia has 20,000,000 men under arms; then no wonder the czar can send aid to France and to the British in Turkey.

A little brighter weather will be timely for the hay harvest in the east end of the county.

Pendleton will have opportunity to hear some splendid programs during the coming chautauqua.

The season for graduates and brides is at hand.

The best teachers are none too good for Pendleton.

OPPOSITION TO IMPROVEMENTS.
(Continued from page 1.)
again waited upon the council to secure from it a guarantee of a certain sum for maintenance every year. The Carnegie corporation requires such a guarantee from the county and the city had morally bound itself to protect the county. However, Mayor Best stated that he had received an attorney's opinion to the effect that the councilmen could not bind the city to such an agreement, though they might bind themselves. The members of the council appeared perfectly willing to give the necessary guarantee and delayed the matter until some report can be made upon the proper method.

Gasoline Ordinance Passed.
The council last evening passed an ordinance prohibiting the installation of gasoline service stations on Main street from the bridge to Railroad and on Court street from Main to Johnson.

The application of E. L. Power & Son for permission to run a hose across the walk for the supplying of gasoline to cars was refused.
Another petition from H. A. Medernach for permission to repair his dwelling on Garden street, recently damaged by fire, was presented together with estimates by carpenters of the damage done.

REV. MERCER G. JOHNSTON, BIRTHDAY SERVICE.

NEWARK, N. J., May 23.—Hard hitting sermons are not wanted at the Trinity Episcopal church here, according to the Rev. Mercer Green Johnston, who has just resigned his pastorate.

"My vestrymen want me to run the church like a grocery store—please the customers," said Dr. Johnston. "One of my vestrymen told me that my sort of religion was interesting but it was bound to hurt business. I told him it hadn't hurt the business I was in."

PLUG CHEWING A WHOLESOME HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

"SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco.

"I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of all the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form."

"Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I mention Spear Head because I have found that this brand is exceptionally pure, being made in a factory that's run strictly according to pure-food rules."

Spear Head is made of sun-ripened Burley, which is acknowledged to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and luscious flavor of the choice Burley to the supreme degree.

A Chew of Spear Head has a wholesome relish that is not found in any other chewing tobacco. In 10c cuts, wrapped in wax paper.
